

# Threatened Species Research Roadshow

8.30am	Registration
9.00am - 10.45am	<b>Presentation Session Part 1</b>  Welcome to Country <b>Introduction from Hub Director Brendan Wintle</b> <b>Managing fire and invasive predators for native mammal conservation</b> Dr Bronwyn Hradsky, University of Melbourne <b>The role of shifting refuges in conserving Australia's threatened species</b> Dr April Reside, University of Queensland <b>Considering genetics and climate change in translocations</b> Dr Andrew Weeks, University of Melbourne <b>Conservation planning in Victoria's Central Highlands</b> Professor Brendan Wintle, University of Melbourne <b>New research findings from long-term ecological research in forests and woodlands</b> Professor David Lindenmayer, Australian National University <b>Using expert elicitation to improve biodiversity offsetting</b> Megan Evans, University of Queensland
10.45am - 11.15am	Morning Tea
11.15am - 1.00pm	<b>Presentation Session Part 2</b>  <b>Is our monitoring of threatened species adequate (and how can we do better)?</b> Dr Ben Scheele, Australian National University <b>Identifying safe havens for spotted tree frogs</b> Dr Matt West, University of Melbourne <b>Restoring pine-buloke woodlands in north-west Victoria</b> A/Professor Peter Vesk and Dr David Duncan, University of Melbourne <b>The red hot red list and extinction threats for Victorian plants</b> Dr Rod Fensham, University of Queensland <b>Enabling Indigenous-conservation alliances to care for significant species on Indigenous lands</b> Dr Cathy Robinson, CSIRO <b>Framing conservation messages for better public buy-in to threatened species conservation</b> Dr Georgia Garrard, RMIT <b>Highlights of new work from the Threatened Species Recovery Hub</b> Dr Rachel Morgain, TSR Hub Knowledge Broker Open discussion
1.00pm - 2.00pm	LUNCH
2.00pm - 4.30pm	<b>Stakeholder workshop</b> The afternoon workshop is optional. Participants will reflect upon what aspects of the Hub's research are most useful to them and to other research users. We will consider the value of the Hub's research, review how the Hub engages with specialists and the wider community, and brainstorm the most effective ways to share our research findings with different audiences. Spaces are limited.

Thurs, 21 Nov 2017  
9am-4.30pm

Melbourne Museum  
Treetops Space
